A REPORT

To the Board of Trustees of the State University:

GENTLEMEN:—I have the honor to submit the following report:

During the past year the College building has approached a state of completion, except the basement story. The entire disbursements for building have been as follows:

Entire cost of building, desks, furniture, interest on borrowed money, etc.....	\$21,739.30.
Appropriated by the State in 1881.....	\$10,000.00.
Appropriated by the State in 1883.....	10,000.00.
Borrowed from Mrs. F. K. Harris.....	1,000.00.
Borrowed from Library Fund, (T. H. White).....	500.00.
Borrowed from W. P. Price.....	239.30.
	\$21,739.30.

Of the State appropriations the sum of \$10,000 was disbursed by and through the Trustees of the College at Dah-lonega, for which vouchers have been examined and filed. The last appropriation of \$10,000 was expended by the proper committee of the State University, through its treasurer, Lamar Cobb, Esq., who has the vouchers therefor.

The amount of \$1,739.30 over the State appropriations and which the College is still bound for, is made up as follows:

W. P. Price—overpaid on State appropriation.....	\$ 7.03.
Paid A. H. Andrews & Co., of Chicago, for desks.....	699.30.
Paid T. A. Christy for hauling the same from Gainesville.....	47.28.
Interest account from 1879 until State appropriation in 1883 on sums borrowed by order of the Board.....	985.69.

\$1,739.30.

To make good this amount there was borrowed from Mrs. F.

K. Harris	1,000.00.
There was borrowed from Library Fund.*.....	500.00.
There was borrowed from W. P. Price.....	239.30.

\$1,739.30.

*Mr. Thos. H. White, of Cleveland, Ohio, donated \$500 to the Library Fund. We had his consent to use the same in re-building the College, but after the building was finished it was to be restored to the uses of the Library. The money was used in the building, but it can-

The building is now complete in all its departments except the basement, which is intended for the amory, drill room, and for laboratories, as well as a mechanical department. It will require not less than one thousand dollars to complete this work, and fence in the premises properly. I append the report of the Board of Visitors, which in my opinion, covers all the recommendations and suggestions that could be made.

Now that the difficulties which have beset our course for the past five years, have, in a great measure, been overcome, it may not be out of place to review the history of the College during those years of trial.

The fire which destroyed the building, together with its contents, occurred on the morning of December 20th, 1878. There was no insurance on the building. Nothing was left in the way of furniture or apparatus, and the professors were driven to the necessity of teaching in the court house, churches, and such places as could be quickly improvised. It was in the depth of a dreary winter time, and although the students were about leaving for their homes on a short Christmas vacation, they resolved to stay and help rebuild the fallen College; lest by their going the impression might go forth that the days of the N. G. A. College were numbered. The heroism of the students—male and female—during these intervening years; the self-abnegation of the professors; the devotion and self-sacrifice of the citizens, cannot be too earnestly commended. The small endowment which the College had, was at once converted into money, and the work was started; the teachers agreed that a part of their salaries might be held back for the pay of workmen; money was borrowed from the various sections of the State; the Legislature was appealed to in vain for three years for help. Still the work went on. At last the General Assembly in 1882 appropriated \$10,000, nearly one-half the required amount. In 1883 the General Assembly appropriated another \$10,000. These sums have been carefully applied to the reduction and extinction of the debt for the construction of the building. There are no liens of any sort on the building. All the teachers have been paid their back salaries. Not a dollar is due for work on the building. The sum due as stated in this report is for furniture and interest account, but is not a lien on the building. *The title to the building and grounds is vested securely in the University of Georgia.* The sum yet due for furniture and

not yet be restored to the Library Fund, because a sufficient amount of money has not yet been secured to pay off the entire debt. When the College obtains the means it will at once devote \$500 to the Library as directed by Mr. White when he made the gift.

interest account (\$1,729.30) can be liquidated in a few years, but it is hoped and believed that the General Assembly will yet give us the means to supply the building entirely with furniture and suitable apparatus. The basement, with a small outlay for machinery and tools, can be readily fitted up and made a school of mechanic arts. No place in the state offers better advantages for a school of technology than here in Dahlonega, in connection with the college. It might thus be made all that the friends of Industrial Education intended the College should be. In that way the purposes of Congress would be fully carried out.

RESOURCES.

The following have been our resources during the past year:

From the State University.....	\$2,000.00.
From the Gilmer Fund.....	1,000.00.
From entrance fees.....	847.50.
Total	3,847.50.

DISBURSEMENTS.

To D. W. Lewis, President.....	\$1,200.00.
To Professor B. P. Gaillard ..	800.00.
To Professor W. S. Wilson.....	800.00.
To Professor W. F. Crusselle.....	800.00.
To Miss Mary R. Lewis, in Young Ladies' Department..	200.00.
Salary of Janitor, and printing.....	200.00.
Wood, postage, and incidental expenses, not less than.....	200.00.
	\$4,200.00.

Showing an outlay of nearly \$400 above our receipts.

We have no means to provide against casualties of any sort. It is impossible to get along with less teaching force than we now have, without lowering the standard of our College, and do the work expected of us. As it is, we are compelled to get work out of the older students without compensation. The work heretofore performed by the officer detailed by the Secretary of War, has been done the past year by Prof. W. S. Wilson, in addition to his other duties. By a regulation of the War Department, the detail of an army officer will for the next two years go to the Citadel Academy, at Charleston. After that time it is quite possible the officer will be returned to the College at Dahlonega. By the courtesy of Secretary Lincoln we are allowed to retain the equipments of our Military Department until further orders.

Notwithstanding our resources were reduced by the University from \$3,500 to \$2,000, and although we have lost the services of an army officer who formed a part of the faculty, we have kept up the standard of the College. This has been done at great risk and sacrifice. The University of Georgia

ought by all means to restore the amount heretofore received by us, or a part of it, at least. As now situated we cannot make appropriations for chemicals, apparatus, maps, or necessary appliances of any sort. We are kept too constantly on the verge of poverty. We are pinched to such a degree that farther retrenchment is, practically, an impossibility.

ROLL OF STUDENTS.

To the casual observer it may appear that our list of students is decreasing. Heretofore our catalogue included the names of all pupils attending school on the College grounds. Although two primary schools have been conducted on the grounds the last year, we have not seen proper to publish the names of these pupils. The whole number in the College proper has been 146—129 young men and 17 young ladies. These are high grade students.

It has been charged that the benefits of the College are mainly local. The following analysis shows that almost every section of the State has here its representatives:

Baker 1, Banks 3, Bartow 3, Campbell 1, Catoosa 1, Chatham 4, Chattooga 2, Cherokee 3, Cobb 1, Dawson 2, Dougherty 1, Effingham 3, Forsyth 3, Franklin 4, Fulton 6, Gilmer 2, Greene 2, Gwinnett 3, Habersham 1, Hall 8, Hart 1, Henry 1, Jackson 12, Jefferson 1, Laurens 2, Lumpkin 32, Marion 1, Milton 3, Montgomery 3, Morgan 3, Murray 3, Oconee 1, Oglethorpe 1, Pickens 2, Polk 1, Putnam 1, Screven 1, Towns 1, Troup 2, Union 4, Walker 3, White 3. Number of counties represented, 42. Total number of students from Georgia, 136. From Alabama, 2; from Maryland, 1; New York, 1; South Carolina, 4; Texas, 2. Grand total, 146.

LICENSED TEACHERS.

At our late Commencement we licensed 64 teachers for the common schools of the State. It is fair to say that at least forty of these will find good schools. They will instruct this fall not less than 2,000, perhaps 2,500, children. The work that our professors have done in preparing this number of young men and young ladies can scarcely be estimated. Much of this work has been performed at night. In addition to their other duties they have maintained a normal department in the College, second to none in the South. We hazard nothing in saying that we send more teaching force into the schools of the State than all the Colleges of the State combined. The reason is obvious. The pupils of this College are mainly dependent upon their own efforts for an education. Teaching the common schools offers the surest means of accomplishing this end than any other employment, and enables

them to return at the beginning of each year to prosecute their studies.

THE BROWN FUND.

We have carefully distributed this money among the class of young men intended to be aided by the donor. Eight young men have received aid from this source: six from Georgia and two from South Carolina. Our observation is that a young man can pay all proper expenses at our school, and subsist on one hundred dollars per annum. Some of the young men have expended less than this sum.

CONCLUSION.

While the past year has been noted for much sickness over the entire country, and our community has not been exempt, there has been very little sickness, and no deaths, among the students. We, however, have to chronicle the demise of one of our Board, Capt. A. J. Reese, whose sudden death a few weeks ago was a shock to the entire community. The place thus made vacant in our Board has been filled by the election of R. H. Baker, Esq.

An experience of eleven years has demonstrated that no location in the United States shows a greater exemption from sickness than Dahlonega.

Respectfully submitted.

W. P. PRICE,

Adopted by the Board:

President Board Trustees.

➤ REPORT OF BOARD OF VISITORS. ◀

To His Excellency H. D. McDaniel, Governor of Georgia:

We, the Committee appointed by you to visit the annual Commencement of the North Georgia Agricultural College, at Dahlonega, beg leave to submit the following report:

We find the College building admirably suited to its purposes, a carefully, strongly built structure on the foundations of the old mint, with the floor plans changed for college uses. The building is not yet completed—the basement is unfinished. It should be fitted for an armory and chemical laboratory. We find upon inquiry that there is no insurance on the building.

APPROPRIATIONS.

From satisfactory evidence submitted to your committee, we find the first ten thousand dollars appropriated by the General Assembly

for rebuilding the College, honestly and judiciously expended. We find the second ten thousand dollar appropriation properly disbursed by the Trustees of the University of Georgia in conformity with the provisions of the act.

ATTENDANCE.

By examining the College rolls we find that there have been 146 students in attendance during the year—129 young men and 17 young ladies. Forty-two counties of the State have been represented. These counties range from Towns and Habersham on the north, to Chatham, Laurens and Baker on the south. Students from the States of South Carolina, Alabama, New York, Maryland and Texas, have also been in attendance.

TEACHING FORCE.

We find the Faculty consists of four professors and one young lady teacher, doing more than their duty. The College has not now the United States army officer sent by the Government as Commandant of Cadets. This duty is assigned the professor of Mathematics, thereby giving him double duty. The other teachers have their hands more than full. The duties, however, are met and well performed by the extra energy and zeal of the teachers. The salary of these hard worked teachers is inadequate, and not in proportion to their labors.

NORMAL DEPARTMENT.

In accordance with the act approved February 28th, 1877, the Faculty this year licensed 64 teachers to go out to teach in the three months public State schools. The amount of work and actual good done by these young men can scarcely be calculated or appreciated.

BENEFITS.

We note great changes for the better, in the county in which the College is located, and in the adjoining counties, which can be attributed only to the influence for good and advancement of the College. The very face of the country shows a more cultivated people. The College furnishes advantages for a class of our citizens otherwise unable to furnish their children with an education except for the free tuition and cheap rate of living at Dahlonega. It is the opinion of your committee that this College is doing a vast deal of good to the people of the whole State.

RECOMMENDATIONS.

We recommend that the next General Assembly appropriate the sum of \$3,500 for the purpose of completing the College building and fitting up the basement for a chemical laboratory and armory. We also recommend the appropriation of \$1,500 to furnish the building with necessary school furniture.

We also recommend that the building be placed on the list of public buildings of the state, and that it be insured at once and kept insured with them, the building and furniture to be valued at thirty thousand dollars.

COMMENCEMENT EXERCISES.

The Commencement was interesting. The exercises were continued through the 8th, 9th, 10th and 11th inst., with great success. They showed great care on the part of the teachers and students in the preparation and presentation. The class of six young men and one young lady graduated— all with credit. The number of alumni present

—more than at any other time—shows there is a deep and abiding interest in the welfare of the school in all parts of the State. We congratulate the school, we congratulate Georgia, that the young men who have gone out from this institution are doing all that men can do; they are taking a leading part and a high stand in whatever profession or avocation of life they have chosen. As a body, by their lives they speak volumes of commendation for their Alma Mater.

Our duty has been a pleasant one. We have responded to our best ability, and would most respectfully urge that the recommendations made be acted upon.

Respectfully submitted.

FRANKLIN P. RICE, Chairman.

GEORGE L. BELL.

YOUNG LADIES;

Maude Chapman,	Columbia Gaddis,
Lillie Matthews,	Bessie F. Murpny,
Mamie Murphy,	Belle Sutton,
Massie C. Wills.	

⇒ ROLL ÷ OF ÷ HONOR. <

The following young ladies have their names on the *Roll of Honor* in the Female Department for punctuality, deportment, and class standing:

1. Miss Ada F. Smith,
2. Miss Dorus Stow,
3. Miss Bessie Murphy,
4. Miss M. Belle Sutton,
5. Miss Fannie Reid Lewis,
6. Miss Columbia Gaddis,
7. Miss Massie C. Wills,
8. Miss Maude Chapman,
9. Miss Jessie R. Sutton,

Miss Dorus Stow received a certificate of proficiency in Botany.

⇒ MEDALS ÷ AWARDED. <

Miss Ada F. Smith, Best Record Medal.

Miss M. Belle Sutton, Medal for the best Essay.

Miss Sallie Price, Medal for the best Recitation.

Sergeant S. S. Pearce, the Frank P. Rice Medal.

Sergeant John M. Cavender, The W. F. Jones Prize Medal.

Private E. B. Holland, Citizen's Drill Medal.

Private O. B. Smith, Students' Drill Medal.

*Capt. M. N. Stow, Drill Medal for 1882.

*This was accidentally left out of the Catalogue for 1882.

➤ADMISSION.◀

Candidates for admission into the Institution must see the President and make application within twenty-four hours after they arrive, or they may be denied the privilege of entering.

The applicant must be prepared to furnish testimonials of good moral character, and if he has been a member of an incorporated institution of learning he must produce a certificate of honorable withdrawal. He must promise in writing that he will faithfully abide by the rules and regulations of the College, and that whenever he is called upon by a member of the Faculty with questions concerning his deportment, he will answer truthfully to the best of his ability; that he will be honest with himself and the teachers at all recitations and examinations, and that he will not enter into any combination whatsoever against fellow-students, or any of the workings of the Institution; and that he will deport himself in a gentlemanly manner at all times.

No tuition is exacted. An admission fee of Five Dollars is required of all. This fee goes entirely to defray the expenses of wood, repairs on the building, and the janitor's salary, as there is no fund to meet these needs.

✠ CURRICULUM ✠

✠ Preparatory ✠ Department. ✠

SECOND CLASS.

ENGLISH.—Swinton's Grammar and Composition; History of the United States.

LATIN.—Allen & Greenough's Latin Method.

MATHEMATICS.*—Lessons in Numbers; Higher Arithmetic begun.

GEOGRAPHY, Penmanship, English Grammar, Composition, Elocution.

FIRST CLASS.

ENGLISH.—Swinton's Grammar and Composition.

LATIN.—Latin Method and Extracts from Cæsar.

MATHEMATICS.*—Higher Arithmetic, completed; Algebra to Involution and Evocation.

✠ Collegiate ✠ Department. ✠

(Bachelor of Arts Course.)

FRESHMAN CLASS.

LATIN.—Cæsar; Sallust; Ovid; Allen & Greenough's Grammar.

GREEK.—Harkness's First Book; Reader.

MATHEMATICS.*—Algebra, completed; Geometry, through six books.

NATURAL SCIENCE.—Gage's Physics; Physical Geography.

ENGLISH Language and Literature.—Elementary Rhetoric; Composition; Elocution.

SOPHOMORE CLASS.

LATIN.—Cicero's Orations; Virgil; Horace's Odes; Allen's Composition; Roman Antiquities.

MATHEMATICS.*—Geometry, completed; Plane and Spherical

*Wentworth's Series of Mathematics.

It is urged that the student do not take up too many studies during Freshman and Sophomore years, as it is here that he receives fundamental principles.

Trigonometry; Surveying, Leveling and Navigation.

GREEK.—Prose Composition; Anabasis; Homer.

NATURAL SCIENCE.—Chemistry; Agriculture.

ENGLISH Language and Literature.—Higher Rhetoric; Elocution; Composition.

JUNIOR CLASS.

LATIN.—Horace's Satires and Epistles; Cicero's Ethical Works; Prose Composition; Roman Antiquities.

GREEK.—Prose Composition, (Arnold); Herodotus; Xenophon's Memorabilia.

MATHEMATICS.—Church's Analytical Geometry; Millar's Descriptive Geometry.

NATURAL SCIENCE.—Physics; Mechanics, (Kimball's Olmsted.)

ENGLISH Language and Literature.—Mental Philosophy; Political Economy; Composition; Elocution.

SENIOR CLASS.

LATIN.—Tacitus; Quintilian; Juvenal; Original Composition.

GREEK.—Prose Composition; Alcestis of Euripides; Antigone of Sophocles; Prometheus Vincit of Æschylus

MATHEMATICS.—Church's Calculus; White's Astronomy.

NATURAL SCIENCE.—Mineralogy; Geology, (LeConte's Elements.)

ENGLISH Language and Literature.—Moral Philosophy; Logic; Composition; Elocution; Select Reading from Standard English Authors.

✧ Young & Ladies' & Department. ✧

SOPHOMORE CLASS.

Same as Freshman for Bachelor of Arts, with the option of substituting for Greek

FRENCH.—Introductory Grammar; Collet's Anecdotes; De la Bedollierre.

JUNIOR CLASS.

Same as Sophomore for Bachelor of Arts, dropping Spherical Trigonometry and Surveying, and substituting

BOTANY.—Object Lessons; Botanist and Florist.

In lieu of Greek may be substituted

FRENCH.—Larger Grammar and the Philosophe sous les toits; De Stael; Fenelon.

SENIOR CLASS.

SCIENCE.—Geology; Botany—Class Book, (Wood's); Apgar's Plant Analysis; Chapman's Southern Flora.

FRENCH.—Readings from Racine and La Roman d'un jeune Homme Pauvre; Grammar completed.

➤ MILITARY : DEPARTMENT. ◀

This Department is under the immediate command of Major W. S. Wilson. The cadets are organized into a battalion of two companies, which latter are officered with cadets selected by the Faculty. They are chosen for their merit, considering deportment, disciplinary ability, aptness in the drills, class and class stand. The military organization secures the enforcement of discipline with greater ease and less friction than any other, as the responsibility of the cadets themselves for the observance of the regulations inspires a greater trustworthiness and firmer moral tone than can be obtained by any possible system of outside espionage.

THEORETICAL INSTRUCTION.

Theoretical instruction consists of recitations in Upton's Infantry and Artillery Tactics, accompanied by its application on the drill ground. In addition lectures are delivered by the Commandant upon the various living military topics, in order that the students may have a general knowledge of those other branches of military science besides the drills. It is desired here rather to give the student a general knowledge of those fixed military principles which underlie the whole art and science of war, than to burden his time with the acquisition of technical military instruction, desirable only for the professional soldier.

INFANTRY DRILL.

The members of the battalion are drilled in the schools in order: School of the Soldier, of the Company, (including skirmish drill,) and of the Battalion.

We find that the drill gives to the student exercise which is absolutely essential to health of body and mind, and which many of them would not take unless required to do so. With the exception of Sunday the cadets are drilled daily when the weather permits.

ARTILLERY DRILL.

The officers, non-commissioned officers and picked privates

are drilled in the "Manuel of the Piece." Exercise with blank cartridges is frequently had in this drill.

GYMNASTICS.

In addition to the drill, gymnastic exercises, performed only under the direct example and observation of the Commandant and cadet officers, have been found extremely useful in improving and developing cadets of unusual lack of symmetry or great muscular tenuity. The striking improvement in the physique, the health, and the manly bearing of cadets after a single term's attendance, speaks volumes for the military feature of this College.

PHYSICAL DISABILITY.

Military drill and discipline are obligatory on all male students above 15 years of age. Should a student be unable to perform the duties of this department, he will be given a modified instruction suited to his strength, but no cadet will be entirely excused from the regular routine of duties except by a vote of the Faculty at a regular meeting of the same, at which meeting the student shall present a certificate of a *prescribed* form, from a physician of good standing, testifying that he is unable to engage in the regular exercise, or such modified exercise, as may be required of him.

ARMS.

We have at present 150 Cadet Springfield rifles (breech-loaders) and accoutrements, and two three-inch wrought iron guns and carriages furnished by the General Government. A liberal supply of ammunition is also furnished yearly.

Target practice is frequently engaged in under the supervision of the Commandant; Creedmoor targets and rules are used.

UNIFORM.

Uniforms are worn at all military drills and formations. The students in the Military Department are required to provide themselves with the uniform of the school, consisting of coat, pants and cap, within one month from the time they enter the College. Arrangements have been made by which the uniform, of splendid material, style, and finish, can be obtained promptly, at minimum wholesale prices—the cost of coat, pants and cap being \$15.50.

As stated above it is not required that cadets shall wear the uniform except at military drill and formations, but at the price stated, the uniform is about the most economical clothing obtainable, as the cadets pretty generally take extra pains to keep their *uniforms* clean and neat.

➤OFFICERS OF THE CORPS OF CADETS.◀

Commandant:

Major W. S. Wilson, A. M.

Staff Officers.

F. C. Wilson, *Cadet Lieutenant, Acting Adjutant.*

W. W. Cornog, *Corporal.*
T. Hutcherson, *Corporal.*
W. A. Arthur, *Corporal.*

*Deceased August 7th, 1884.

➤ GENERAL INFORMATION. ◀

LOCATION.

Dahlonega is the county site of Lumpkin county, and is a town of about one thousand inhabitants, exclusive of students of the College. It is twenty-five miles from Gainesville on the Richmond & Danville Railroad, and about seventy miles north of Atlanta. It is in the centre of Northeast Georgia, fifty miles from the lines of the adjoining states of Tennessee, North Carolina and South Carolina. The mountains lie all around and about the place, rendering it one of the most beautiful and romantic places in the South. Fine freestone water abounds every where, and mineral springs are within easy walk of the College, that are regarded by eminent physicians and chemists as containing medicinal properties which cure many of the diseases which afflict residents of the low country, to-wit: chills, fevers, and malarial diseases generally, and are especially recommended for rheumatism and dyspepsia. There are three churches in the place—Methodist, Baptist and Presbyterian. Two Sabbath Schools are kept up regularly. The DAHLONEGA SIGNAL is published in the place by Messrs. Sutton & Son, and is issued every day as the DAILY SIGNAL during Commencement. The columns of the paper are always open for the publication of original compositions by the students, and it at all times lends its influence to the advancement of the best interests of the College, and the diffusion of useful information concerning it, its experiments, examinations, etc.

Students, on their arrival at Gainesville, will take the daily hack-line for Dahlonega. Fare ranges from \$1.00 to \$2.00.

BUILDING.

The College building which has been in course of construction for several years past, is now about completed. It is a large, imposing brick building, beautifully situated on an eminence in a conspicuous part of the town; is handsomely designed and admirably adapted to the purpose for which it was intended. It contains a Chapel and fifteen recitation rooms.

THE SCHOLASTIC YEAR.

The next Fall Session, which is the beginning of the scholastic year, commences on the first Monday in September, and continues without interruption until the first Monday in February, when the Spring Term begins, and continues until the second Sunday in June, when Commencement Sermon is preached. The next three days are taken up in the exercises of Commencement.

EXPENSES.

Board, including fuel, lights, etc., can be had in good families at \$10, \$12, and \$15 per month. Many of the very best young men buy

provisions and rent rooms, where they hire their cooking done, and in this way do very nicely at from \$6 to \$8 per month. Some have reduced their expenses even as low as \$3 per month in money by bringing from home with them their provisions. The annual cost of books averages from \$10 to \$15 per year. This expense is frequently reduced by purchasing second hand books. Good washing costs \$1 per month. **No tuition is required; only a matriculation fee of \$5 per term,** and a deduction is made if the student is unavoidably called away from school.

There is a false pride which makes some young men shrink from the idea of going to College and living in the economical way shown above. This is indeed false pride. More than two-thirds of the graduates of the Institution went through College this way.

BROWN FUND.

From the Charles McDonald Brown Scholarship Fund the Institution gets \$1,000 annually. This is to aid worthy young men who are unable to pay their way through college. The applicant must be 18 years of age, of general good health, and reside in one of the following counties: Rabun, Towns, Union, Fannin, Murray, Habersham, White Lumpkin, Dawson, Gilmer, Pickens, Cherokee and Forsyth. On entering school he gives his promise on honor in writing that he will pay back the money he receives as soon after he completes his course as he is able. Applications for aid from this fund must be made in writing to the President of the Board of Trustees.

PRIMARY DEPARTMENT.

The College has had since its organization a well attended Primary Department for those pupils over seven years of age, whose attainments do not admit them to the Preparatory Department, but this Department has been placed in the hands of private teachers. Such pupils can find accommodation at these private schools. To enter the Preparatory Department the pupil must pass an examination showing that they can read correctly, write legibly, and that they are prepared on primary geography, and in arithmetic through long division.

THE FEMALE DEPARTMENT.

A part of the building is set apart exclusively for the occupancy of the young ladies, and no intrusion whatever on the part of the young men is permitted. This Department is under the special care of Miss Mary R. Lewis, who presides over the young ladies' study room and that part of the building set apart for them. All the young ladies are in her presence, except when in the recitation rooms of some of the other professors. In the afternoon when the cadets are engaged in drill, the young ladies, under the charge of Miss Lewis, go through calisthenic exercises. For the sake of out-door exercise the young ladies have organized into an archery club. The exercise afforded by the drill in calisthenics and the bow and arrow does as much for the mental and physical development of the young ladies as the Military drill and gymnastic performances for the young men.

A DISTINCTIVE, VALUABLE, UNEQUALLED FEATURE.

This Institution has a place for a pupil of any grade of scholarship, from the first class of the Primary Department, through the Bachelor of Arts course. Hence the value to families. Parents with sons and daughters from five to twenty-five years of age come and take

up their residence here for these advantages, and thus enjoy, while their children are being educated, the blessings of a family with all at home—freedom from anxiety on account of the absent ones at a distant boarding school—the influence of home and of parents, valuable to sons, essential to daughters—and the influence of an unconscious education of the younger pupils, which is derived from their observation of the manners, the proper language, the propriety of dress, which they daily witness in the older and better cultivated pupils, and the attention, assistance and protection which older brothers and sisters can give to the younger when in the same school.

MEDALS.

The Frank P. Rice Latin Medal.—A large, beautiful \$100.00 Gold Medal has been given to the College by Hon. Frank P. Rice, of Atlanta, to be awarded at each annual Commencement to the student who makes the best record in Latin, and averages seventy-five per cent in two other branches.

The W. F. Jones Prize Medal.—Mr. Will. F. Jones, of the class of '83, has donated to the Scientific Department of the College an annual gold medal to be awarded to the student of a particular class who may stand the best examination in the course of study for that year.

The Corona Hederæ Medals.—The Corona Hederæ Society presents two gold medals annually; one for the best original essay, and one for the best recitation.

The Record Medal.—Miss Mary R. Lewis, principal of the Female Department, gives a gold medal to the young lady who makes the best record in deportment, punctuality and recitations.

The Citizens' Medal.—The citizens of Dahlonga award a gold medal annually to the cadet private best drilled in the School of the Soldier.

The Students' Medal.—This gold medal is given to the second best drilled cadet private.

Mathematical Medal.—A gold medal will be annually awarded to that student who makes best progress in the school of Pure Mathematics.

SOCIETIES.

Two Literary Societies have been organized in the College, to-wit: The Decora Palæstra and the Phi Mu. These Societies have done much toward the improvement of the young men of the College. The young ladies of the Institution also have a society, the Corona Hederæ composed of their number.

LIBRARY.

The Institution has only a limited number of volumes at this time, a large number having been destroyed by the fire of 1878. Generous contributions have found their way to the College during the past year and we trust will be largely augmented in time. To make up this deficiency the large and valuable library of President Lewis, equalled by few, if any, private libraries in the State, has been generously thrown open to the use of students, for which the Trustees feel profoundly grateful. The privilege of this library is of immense benefit to the College.

We shall be pleased to receive contributions of books, pamphlets, rare old papers, and pictures of prominent authors, statesmen, educa-

tors, philanthropists, divines, lawyers, physicians, artisans, musicians, as well as those who distinguish themselves in any other honorable pursuits of life. These will be consigned to a conspicuous place in the College.

MONTHLY REPORTS.

At the end of every month the Faculty sends out reports of all the students, giving an account of their standing during that month. In these reports 100 is the maximum and 0 is the minimum. With each student a demerit account is kept, and whenever one is found guilty of an infringement upon any rule or regulation, the charge is read out by the Commandant at roll call in the morning, and the delinquent is called upon for an explanation. If he fails to give a satisfactory explanation, a number of demerits is recorded against him, according to the gravity of the offense. If a student receives 100 demerits during a term of five months, he is published in the Catalogue as expelled.

PROHIBITION.

The sale of intoxicating liquors is prohibited by the Legislature within three miles of the corporate limits of the town, and no student is allowed to go beyond that limit without consent of the Faculty.

GRADUATION.

Students, male and female, may graduate in the Bachelor of Arts course, but those young ladies who do not desire to pursue a course so liberal and extensive, may graduate and receive the diploma of the Female Department. To graduate the candidate must complete the prescribed course, and stand a written examination, making seventy-five of the maximum. French instead of Mechanics and Military Science is required of young ladies taking the Bachelor of Arts course.

SOCIETY OF THE ALUMNI.

This Society is composed of the graduates of the Institution for the promotion of their social interest, and in behalf of the education of the youth of Georgia.

BANQUET AND REUNION.

On Wednesday night of Commencement week a Reunion Banquet will be given in honor of the old students who are visiting the College. These reunions are found to be very enjoyable. It is here that all meet with a fraternal feeling, in fond recollection of the past.

TO OLD STUDENTS:

It is the intention of the Institution to publish a catalogue of all the students who have ever been in attendance, giving address and occupation. Frequently letters are received asking information concerning old students. It is desired that these tender recollections and friendly relations of youth shall be cultivated as much as possible. Please drop a few lines to the President or Secretary of the Faculty, giving your present address, occupation, and the time you were in attendance. If you know any other old students who has moved away or will not likely see this Catalogue, please give the desired information of them.

SUMMER EMPLOYMENT.

A great many young men and ladies, by teaching and selling books

during vacation, make money enough with a little assistance to go to school the following year. Some make even more than a sufficiency. It is evident that with many the great difficulty in getting through college is experienced while making the funds to carry them through the first year. After they have formed acquaintances and acquired some advancement they are able to utilize it for their further promotion. We would advise young men of means to spend their vacation this way, as it gives them experience and an insight to human nature which young men are frequently woefully in need of after they have completed a liberal course of study.

OBJECTS.

The educational intelligence afforded by this Institution is especially designed to prepare the pupil for—

1. The business and enjoyment of practical home and farm life.
2. The higher classes in the University of Georgia.
3. The learned professions.
4. The profession of teaching; and as a passport to the same Certificates of Proficiency in the several departments, and of qualifications to teach, will be granted by the Trustees to students showing diligence, aptitude, and progress in their education.

➤LEGISLATIVE ♦ ACT.◀

AN Act to establish a Normal Department in the North Georgia Agricultural College, at Dahlonega, and to more efficiently provide for the Military Department of the same, and for other purposes.

SECTION 1. Be it enacted by the General Assembly of the State of Georgia: That as soon after the passage of this act as practicable, the Board of Trustees of the North Georgia Agricultural College shall be required to organize more fully and efficiently a Normal Department in said College. Said Board of Trustees shall, in connection with the State Board of Education, adopt such rules and regulations as may be necessary and proper for the free admission of such pupils, male and female—not less than one from each county—as may express the desire and intention of following the business of teaching; the object being to provide, as early as possible, a sufficient number of able and efficient teachers for the Common Schools of the State, and to provide others, as may be demanded, from time to time. Said Board of Trustees shall have power, under terms agreed upon before the admission of pupils to this Department, with consent of parent or guardian, to send said pupils during the fall months to teach remote schools not otherwise provided for.

SECTION 2. Be it further enacted by the authority aforesaid, That said Board of Trustees shall be authorized to contribute to the support of such teachers as may be sent to remote school districts, from any fund in their hands not otherwise specially appropriated, such sums of money, which, taken with such aid as may be secured from patrons, as will enable them to properly subsist while so engaged; but nothing contained in this section shall authorize the schools so taught to be kept for a longer period than three months in any scholastic year. Said Board of Trustees are also authorized to provide room rent free to such pupils while attending the Normal Department, and such other aid as will enable such pupils to subsist in the most economical plan. And the certificate of proficiency and license to teach, which may be granted by the Faculty of said College to such pupils as may found qualified to teach, shall be countersigned by the President and Secretary of the Board of Trustees, and bear the seal of said Institution; and the persons holding such certificates and licenses shall not be required to undergo an examination, or procure a license from any board of education or county school commissioner, before they can teach in the Common Schools of the State, where they are employed by the patrons of the school.

Approved February 23d, 1877.

➤ GOVERNMENT. ◀

The students are governed exclusively by the Faculty, who may delegate authority to any member of its body to preside over the morning courts when the delinquencies are heard. This officer elected by the Faculty imposes demerits for infringement against the laws of the Institution according to an established list: but if the offense is of a very grave character, or cannot be located under any of the written laws, the offender is arraigned before the Faculty assembled together, and his case is there tried. If the accused is found guilty the penalty is imposed by a majority vote of the members present.

Any member of the Faculty may impose demerits upon a student for infringements which come under his observation. Students may be put in confinement in addition to any number of demerits, when the gravity of the offense justifies it. When a student is in confinement he is on his honor not to leave his room, except to perform duty.

RULES.

1. Every pupil is required to attend the opening exercises in the morning, or be marked for neglect or tardiness, unless excused.

2. As divine service is held nearly every Sabbath in the year in the churches of the town, it is expected that each student will attend divine service at least once every Sabbath; and for irreverent behavior while attending church shall be suspended, or otherwise punished, according to the offense.

3. Regular attendance upon recitations is so important that none will be excused, except where necessity will justify their absence.

4. Strict attention to study, and punctuality in attendance on lectures, recitations, and other duties, will be made the condition of every student's continuance at the College, except where they are broken off by the requirements of the farm or other home demands. During their stay within the town, no student will be allowed to devote the hours of study to idleness and vagrancy.

5. Students are required to quietly take their places in the recitation room at the appointed times; to attend closely to the exercises of the hour—not whispering or communicating in any manner with each other—and when the exercise is over to retire in a quiet and respectful manner.

6. The habit of contracting debts at stores—except for necessary books and stationery—and of hiring horses and vehicles—except on business approved by the Faculty—is strictly forbidden, unless with the knowledge and consent of parent or guardian, in writing.

7. The use of spirituous or intoxicating liquor is strictly forbidden, and if any student is known to have, drink, or procure the same for himself, or to furnish it to another student, or to assist another to obtain it, he shall be suspended for three months, or expelled.

8. A student who shall offer or accept a challenge to fight, or in any way aid, abet, or promote a duel, or upbraid another for declining to fight, shall be expelled.

9. Pupils are prohibited from entering into combinations under whatever pretext, for the purpose of disturbance, or violating or evading any authorized rule or order. Anyone engaged in riotous conduct or becoming a party to an agreement to hold no intercourse with a fellow-student, or do any act to the prejudice of good order and gentlemanly bearing, shall be suspended or expelled, according to the aggravation of the offense.

10. No pupil will be allowed to play cards, or bet, or wager money or anything of value upon games of chance.

11. Each student is required on entering the College to deliver to the Commandant of Cadets any pistol or other weapon he may have in his possession, nor is any student allowed to keep or have in his control any such weapon, neither his own nor that of any other; and any one drawing or using such weapon against another will be expelled.

12. Profane swearing or corrupt language, and defacing the walls, will receive prompt punishment. All offenses against good morals, and all irregularities or neglects, to the prejudice of good order and gentlemanly bearing, though not herein enumerated, will be taken cognizance of according to the nature and degree of the offense.

13. No student shall be allowed to engage in concerts, charades, exhibitions or minstrelsy. Nor shall any student while connected with the Institution, be allowed to attend balls, or loiter about places of dissipation, or attend circuses, without the consent of the parent or guardian.

14. All damage to the College building, breakage of seats or window glass, shall be immediately repaired by the pupil committing the same, or by his parent or guardian. On failure to repair or pay for the same the student shall be expelled, and not allowed to enter again until the amount is paid or damage repaired.

15. No student is allowed to discontinue his connection with the College before the term is out, without the express consent of the Faculty. In the case of non-resident students, they will be under the jurisdiction of the Faculty until they leave the town. When a pupil absents himself without leave, his name will be placed in the catalogue as expelled.

16. No student is allowed to smoke on the streets of the town, on piazzas or grounds fronting the streets, on the College grounds, nor in the College rooms or halls.

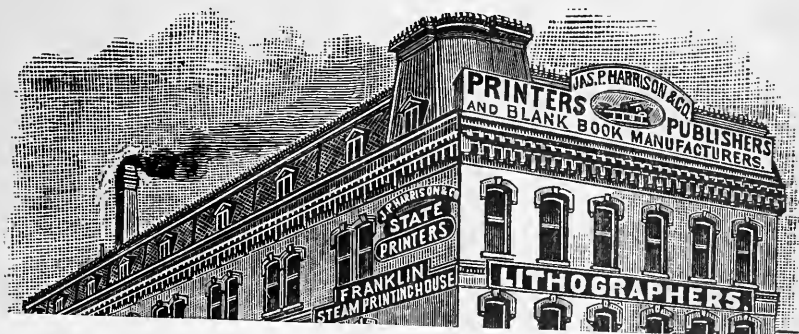

17. Study hours, when students are required to be at their studies in their rooms, or engaged in some other duty, are from 8 a. m. to 12:30 p. m.; from 2 p. m. to 4 p. m., and from half an hour after sunset to 9 p. m. During the day on Saturdays study hours are only enforced until 11 a. m. Students are allowed to retire at 9:30 p. m., and unless on duty will never leave their rooms after 10 p. m.

18. Cadets shall endeavor to carry out the commands and directions of all officers of the Faculty and Cadet officers, when on duty, to the very best of their ability.

7. The use of spirituous or intoxicating liquor is strictly forbidden, and if any student is known to have, drink, or procure the same for himself, or to furnish it to another student, or to assist another to obtain it, he shall be suspended for three months, or expelled.

8. A student who shall offer or accept a challenge to fight, or in any way aid, abet, or promote a duel, or upbraid another for declining to fight, shall be expelled.

9. Pupils are prohibited from entering into combinations under whatever pretext, for the purpose of disturbance, or violating or evading any authorized rule or order. Anyone engaged in riotous conduct or becoming a party to an agreement to hold no intercourse with a fellow-student, or do any act to the prejudice of good order and gentlemanly bearing, shall be suspended or expelled, according to the aggravation of the offense.

10. No pupil will be allowed to play cards, or bet, or wager money or anything of value upon games of chance.

11. Each student is required on entering the College to deliver to the Commandant of Cadets any pistol or other weapon he may have in his possession, nor is any student allowed to keep or have in his control any such weapon, neither his own nor that of any other; and any one drawing or using such weapon against another will be expelled.

12. Profane swearing or corrupt language, and defacing the walls, will receive prompt punishment.

16. No student is allowed to smoke on the streets of the town, on piazzas or grounds fronting the streets, on the College grounds, nor in the College rooms or halls.

17. Study hours, when students are required to be at their studies in their rooms, or engaged in some other duty, are from 8 a. m. to 12:30 p. m.; from 2 p. m. to 4 p. m., and from half an hour after sunset to 9 p. m. During the day on Saturdays study hours are only enforced until 11 a. m. Students are allowed to retire at 9:30 p. m., and unless on duty will never leave their rooms after 10 p. m.

THE SOUTHERN CULTIVATOR

306

DIXIE FARMER:

By recent purchase it now combines
THE DIXIE FARMER, Atlanta, Ga.; THE
PLANTATION, Montgomery, Ala.; THE
RURAL SUN, Nashville, Tenn. THE
SOUTHERN FARMERS' MONTHLY, Sa-
vannah, Ga., and unites the patrons of
these with its own LARGE LIST of sub-
scribers. The Press and people all tes-
tify to its great merits for Agriculturists,
and as a medium for controlling South-
ern trade.

SAMPLE
COPIES
FREE.

THE SOUTHERN CULTIVATOR is devoted to the Agricultural and Industrial interests of the South—and every number goes out freighted with information vital to the success of those whose interests it subserves. It is one of the oldest and most popular Journals in the Union, and for SOUTHERN AGRICULTURISTS, for whom it has labored for half a century, has no superior.

The following are some of the leading features of this great journal.

THOUGHTS FOR THE MONTH:

Valuable, Practical Suggestions to the Farmer for Each Month in the Year.

Public Roads; Ditching and Terracing; The Orange Grove; Legal Department; Letters from the Field, from every State in the South, giving results of tests of our best planters on matters of practical benefit to the farmer.

Inquiry Department, in which are propounded and answered questions covering almost everything of interest on the farm.

The Patrons of Husbandry, everything of value pertaining to the order; topics of the times; fashion department, attractive to the ladies; the apary; horse notes; live stock doctor; hog cholera; Jersey herd; fruit culture; Southern silk culture; science and art; the family circle; children's department; household topics; THE CULTIVATOR cook book, etc.

The Intensive System of Farming, by Mr. DAVID DICKSON, covering the entire system of Southern Agriculture, is now being published in THE CULTIVATOR, in series of twelve monthly numbers. Back numbers can be furnished.

The Southern Cultivator.

SUBSCRIPTION RATES:

Single subscriber, one year, \$1.50

Our Book Premiums.

To any one subscribing to this paper for one year, either singly or in a club, or renewing for one year, we will send either of the following books on receipt of ten cents extra to pay postage:

Fisher's Grain Tables,
Scribner's Lumber and Log Book,
Debates in the Georgia Legislature,
A Treatise on the Horse,
John Ploughman's Pictures,
Robinson Crusoe,
Pilgrim's Progress,
Social Etiquette and Home Culture,
The Revised New Testament,
The Illinois Cook Book,
The Young Wife's Own Cook Book,
Common Complaints and How to Cure Them,
Hand Book of Business,
Grammar Made Easy,
Key to Composition,
How to Speak and Write,
The Negro—His Origin and Destiny.

Premium for Two Subscriptions:

"A Manual on the Cultivation of Grasses and Forage Plants at the South," by Charles Wallace Howard; or,
"Chemical Manures," Agricultural Lectures delivered at the Experimental Farm at Vincennes, by George Ville—Translated by Miss E. L. Howard, daughter of Charles Wallace Howard.

Any one sending us two new subscribers to THE CULTIVATOR, at \$1.50 each, will be entitled to either one of these books.

A LIBERAL OFFER.

By a special arrangement, we are enabled to offer as an inducement for subscriptions to THE SOUTHERN CULTIVATOR a fine poultry paper,

THE POULTRY POST,

Published monthly. We will send this excellent paper free to any one sending us three subscriptions at \$1.50 each, or five at \$1.25 each, or ten at \$1.00 each. To any single subscriber sending \$1.50 for his own subscription and ten cents to pay postage, we will send THE Poultry Post free. Our readers may depend upon this paper being a most excellent one of its kind, entirely devoted to Poultry Raising.

Famous Confederate Commanders.

Every portrait has been carefully verified and has been produced at great expense and in the most elaborate and artistic manner by eminent artists. The portraits of the Generals will be recognized at a glance; they are in full uniform and true to life. Only a few of these great heroes are now living, and no true Southerner should fail to possess one of these valuable mementoes. They are appropriate for the parlor, library, hall or office, and will compare favorably with the finest oil paintings. The portraits are printed on heavy plate paper (ready for framing), size 22x32 inches, and will be sent to any address (postage or express paid), carefully packed in tubes, on receipt of price, 50 cents, or will send copy to any new subscriber to THE JOURNAL or SOUTHERN CULTIVATOR, who sends 50 cents extra to the 30 days offer. Address JAS. P. HARRISON & Co., Drawer 8, Atlanta, Ga.
